

“e” Collaboration

Randy Goodall, Assoc. Director MM&P
International SEMATECH

December 6, 2000

Welcome

- **Since April, ISMT has been driving “e-Diagnostics”**
- **Now, 100+ people and 100+ pages of guidelines later...**
- **Explore the broader (more general) issues of “Equipment Engineering Systems” in fabs**
 - Based on our relationships and global collaboration between International SEMATECH / Selete / JEITA
- **This meeting today is designed to inform the industry (IC makers and suppliers) about this extension of our collaboration**
